---

## Summary

Current student enrolled in Colorado Mesa University's Bachelor of Science Program with hands on experience gained throughout the years. Possessing a strong passion for continuous learning and driven to take initiative in any role. Adaptable computer science major eager to join an organization in the capacity of software/web development.

---

## Experience

### Web Developer

Freelance/Self Employed • Grand Junction, Colorado  
01/2016 - Present

Selected in my senior year of high school to create website for local kayaking company. Loved the experience and haven't looked back since. I continue to do projects for family, friends, and anyone in between. Currently working on a website for Pioneer Heating & Air, a new local company.
